The files updated are:

C:WINDOWSsystem32uiautomationcore.dll

Solution... short .. uninstall KB2564958

Be aware of the risks. See [KB256958](#) for more information.

Work-around: Copy the original oleacc.dll and oleaccr.dll (Location: WINDOWS\$NtUninstallKB2564958\$) to **C:Program FilesAutoCAD 2002**
